KELOM Mag

**NITROGEN AND MAGNESIUM
DEFICIENCIES CORRECTOR**

CHARACTERISTICS

KELOM Mag is a liquid fertilizer with a high content of Magnesium and Nitrogen. It is suitable for soil irrigation, hydroponics and foliar application.

KELOM Mag prevents the physiological plant disorders associated with Magnesium deficiencies. It has readily available Nitrogen.

KELOM Mag stimulates the vegetative development, growth, colouration of the vegetation, reducing at the same time, the pathogens from magnesium deficiencies (desiccation of rachis in grapes, early leaf drop from heat stress in apple, internervation chlorosis, desiccation of leaves..)
