

Pronat Biofol

ALL-IN-ONE FOLIAR FERTILIZER

PRONAT BIOFOL contains the best seaweeds to create a concentrate emulsion of micro and micronutrients. Increases the production of crops in danger of stress by cause of high temperatures, water deficiency and virus.

FOR ALL CROPS

COMPOSITION

B	150	mg/l
Cu	310	mg/l
Fe	750	mg/l
Mn	310	mg/l
Mo	80	mg/l
Zn	760	mg/l
Nitrogen Total (N)	24,4	%w/v
P ₂ O ₅	11,2	%w/v
K ₂ O	17,4	%w/v
Aminoacids	1,20	%w/v
Auxines	0,60	%w/v
Citokines	2,00	%w/v
Density	1,48	g/cc

PRONAT BIOFOL Includes essential nutrients and organic matter from seaweed extract. Stimulates root development, nutrients and water uptake.

CONCENTRATE EMULSION OF MICRO AND MACRONUTRIENTS WITH SEAWEED EXTRACT

CROPS	DOSAGE (L/Ha)	RATE (cc/100L)/Ha)	COMMENTS
Cereals	2,5	600	1-2 Applications
Citrus	1,5-3	100-200	2-3 Applications every 15 days
Fruits and grapes	3-6	100-200	Apply before flowering. Repeat every 15 days
Ornamentals	1-2	50-100	Use low doses in young and delicate plants
Potatoes	2-3	400	1-2 Applications at the beginning of the crop
Sugar beet	5	500	2-4 Application after transplanting
Vegetables	4	200
