

ORGANIC HUMIC AMENDMENT WITH Fe

COMPOSITION	% p/p
Total Organic Material	91,0
Total Humic Extract	85,0
Humic Acids	80,0
Fulvic Acids	4,0
Humidity	10,0
Potassium (K ₂ O)	10,0
Iron (Fe)	1,0
pH	9-10
Solubility	95%

MOL SÓLIDO 85 WP is a highly concentrated potassium humate. It is a vegetable stimulant of the highest quality and improves soil conditions. It can be used in the gardening and agricultural sectors. Its high degree of solubility makes it suitable for use in foliar applications and in fertirrigation. MOL SÓLIDO 85 WP stimulates plant growth, improves soil fertility and structure.

MOL SOLIDO 85 WP's potassium humates are obtained from lignites by alkaline extraction, a process that produces a highly condensed product with an extremely condensed potassium humate content. It is a high-quality vegetable stimulant and soil conditioner and can be used in both gardening and agriculture with great success. Its excellent solubility makes it especially indicated for foliar and soil application, stimulating plant growth and improving the structure, aeration and fertility of the soil.

DOSAGE AND APPLICATIONS

SOIL APPLICATION	DOSAGE PER HECTARE AND APPLICATION		APPLICATIONS DURING THE GROWTH STAGE
	SANDY SOIL	CLAYEY SOIL	
HORTICULTURAL (trickle irrigation)			
Greenhouse (horticultural crops, ornamental plants...)	100 - 200 g / 1.000m2	75 - 150 g / 1.000 m2	Every 15 days
Open fields (horticultural crops, potatoes...)	100 - 200 g / 1.000 m2	75 -150 g / 1.000 m2	Every 15 days
Fruit trees (apple trees, citrus fruits, bananas...)	200 -400 g / Ha	150 - 300 g / Ha	Every 15 days
SPRINKLERS AND PIVOT SYSTEMS			
Cereals, green beans, rice etc.	800 - 1.200 g / Ha	500 - 800 g / Ha	2-4 applications
Fodder crops, alfalfa, etc.	1.500 - 2.000 g / Ha	1.000 - 1.500 g / Ha	After every mowing
GARDENS			
Lawns (Sprinkler systems)	20-40 g / 100m2	15 - 30 g / 100 m2	After every mowing
Trees, shrubs (trickle irrigation)	100-200 g / Ha	75 - 150 g / Ha	Every 4 weeks
FOLIAR APPLICATION For all crops	150 - 300 g / Ha*		Before transplanting Before sowing Before sowing
ROOT APPLICATION	30 g / 20 L de water		
SEED TREATMENT	200 g / 100 Kg little seed		
	125 g / 100 kg big seed		
IRON CHELATE Enhancer	5-8 g /50 g Chelate 6%
